About this Pharmacy Directory

This directory is a **partial** list of the plan's network pharmacies. It lists pharmacies in your area based on your **ZIP code**. Pharmacies are listed in alphabetical order.

All network pharmacies may not be listed in this directory. Pharmacies may have been added or removed from the list after this directory was printed. This means the pharmacies listed may no longer be in our network, or there may be newer pharmacies in our network that are not listed. It is current as of the date printed on the cover of this directory.

Changes to our pharmacy network may occur during the benefit year. An updated list of pharmacies is located on the plan's website. For the most current list of the plan's network pharmacies, please see the cover of this directory for information on how to call us.

Network pharmacies

A network pharmacy is a pharmacy where you get prescription drug benefits provided by your plan. We call the pharmacies in this directory our "network pharmacies" because we have made arrangements with them to provide prescription drugs to our plan members. In most cases, your prescriptions are covered under the plan only if they are filled at one of our network pharmacies or through a mail service pharmacy.

We have a large service area with many pharmacies where you may fill your prescription drugs. This directory lists network pharmacies in your area. For information about additional network pharmacies, please contact us using the information on the cover of this directory.

You do not have to use the same network pharmacy every time you fill your prescription drugs. You may use any of the plan's network pharmacies. In certain situations, we may cover prescriptions filled at pharmacies outside of the network. Please see your plan's Evidence of Coverage for more information.

For a complete description of your prescription drug coverage, including how to fill your prescriptions, please see your plan's Evidence of Coverage and Drug List (Formulary).

If you have questions about any of the above, including instructions on how to submit claims for prescriptions that you had to fill at a non-network pharmacy, please see the cover of this directory for information on how to call us.

Preferred mail service pharmacies

Members can order prescription drugs from a network mail service pharmacy and have their prescription drugs delivered to their home. You can use any of your plan's network pharmacies, both preferred or standard, to fill your covered prescription drugs. Preferred pharmacies may offer lower costs for covered prescription drugs than standard network pharmacies.

The plan's pharmacy network includes preferred and standard mail service pharmacies. With the preferred mail service pharmacy, you generally have lower out-of-pocket copays. You may save on a 100-day supply of many of your maintenance medications compared with what you would pay at a network retail pharmacy.¹

OptumRx® Home Delivery Pharmacy is one of the preferred mail service pharmacies in the plan's network. You are not required to use OptumRx Home Delivery to supply your maintenance medications, but you may pay more out-of-pocket compared to using OptumRx, your plan's

preferred mail service pharmacy. Members may also use other mail service pharmacies to fill prescriptions.

Prescription orders sent directly to OptumRx from your doctor must have your approval before they can send your medications. This includes new prescriptions and prescription refills. OptumRx will contact you, by phone, to get your approval. At that time, you may also tell OptumRx to automatically fill any future prescriptions they receive directly from your doctor(s) for up to one year. **If OptumRx is unable to reach you for approval your prescription will not be sent to you.**

Prescriptions from OptumRx should arrive within 5 business days after we receive the complete order. OptumRx will call you if there will be an extended delay in the delivery of your medications.

To refill your home delivery prescriptions, please call us before you think the drugs you have on hand will run out to make sure your next order is shipped to you in time. If you do not receive your prescription drugs or have questions, please call toll-free at **1-877-889-6358**, TTY **711**, 24 hours a day, 7 days a week.

Refunds may be available for prescriptions you did not approve and did not want. You may request a refund or cancel your approval by calling OptumRx at **1-877-889-6358**, TTY **711**, 24 hours a day, 7 days a week.

You can find more information about preferred mail service pharmacies by calling OptumRx at the number listed in the “Mail service pharmacies” section of this directory.

Mail service pharmacies are indicated by a  symbol in the pharmacy listings on the following pages.

100-day supply from retail pharmacies

You do not have to use a mail service pharmacy to get a 100-day supply of your prescription drugs. Some of the retail pharmacies in the plan’s network also offer 100-day supply of prescription drugs. If you fill a 100-day supply at a retail pharmacy, you may pay more. Keep in mind, if you use the plan’s preferred mail service pharmacy you may receive savings on 100-day supply of prescription drugs.

Retail pharmacies in the network that fill 100-day supply of prescription drugs are indicated by a  symbol in the pharmacy listings on the following pages.

E-prescribing

Some of our network pharmacies use electronic prescribing, or e-prescribing. The pharmacy receives your prescriptions electronically, directly from your doctor. Your prescription may be sent before you even leave your doctor’s office.

E-prescribing can be a safe and efficient way for network pharmacies to get your prescriptions. It may help the pharmacy avoid reading mistakes and may alert your doctor to drugs that should not be taken together.

Network pharmacies that use e-prescribing are indicated by an  symbol in the pharmacy listings on the following pages.

Retail pharmacies, including chain pharmacies near you

Below are **some** of the retail and chain pharmacies in your area. Pharmacies may have closed or moved locations since this directory was printed.

Retail pharmacies, including chain pharmacies near you (continued)

 = 100-day supply  = Mail service pharmacy
 = e-prescribe
